

QUIP launches European-wide proficiency test for assessing the *IDH1/IDH2* mutational status in gliomas

Dear colleagues,

the German initiative „Quality in Pathology“ (QUIP; www.quip.eu) launches a new proficiency test in Neuropathology in Europe. The test will be conducted **between May 23rd and June 7th, 2019**. Registrations (orders) will be accepted and handled until 01st March 2019.

This international interlaboratory testing aims at assessing the *IDH1/IDH2* mutational status in gliomas as specified in the revised 4th edition of the WHO Classification of Tumours of the Central Nervous System. The test is of special interest to neuropathologists or to general pathologists signing out neurooncological cases. Please find the detailed description of the test in the attached document.

If you are interested in participating in this proficiency test, please send a short e-mail to Ms. Elisabeth Jacob at office@quip.eu. You will get a personal message with the registration link and manual in January.

The costs amount to 500,00 €(net). Payment by credit card or bank transfer will be possible.

We are looking forward to welcoming you as participant.

With kind regards,

Prof. Dr. Markus J. Riemenschneider
QUIP Board Representative and Lead Panel, Neuropathology Regensburg, Germany

Elisabeth Jacob
Project Manager QUIP, Berlin
