

Seventh European Course in Basic Neuropathology (virtual)

20-22 April 2022

Organized by the Euro-CNS Educational Committee

Euro-CNS

TENTATIVE PROGRAM (v1)

Wednesday, April 20th

Session I: 'General neuropathology'

09.00-09.45	Braincut & fixation - W. den Dunnen (Q&A with audience + panel discussion)
09.45-10.30	Basic Neuropathology: reaction patterns (focus on macroscopy) - H. Adle-Biasette (panel discussion with 3 of us)
10.30-10.45	Break
10.45-11.30	Cerebrovascular disease (focus on macroscopy) - C. Smith (Q&A + case discussion)
11.30-12.15	Trauma (macro and microscopy) - C. Smith (Q&A + case discussion)

Session II: 'Developmental neuropathology & epilepsy'

13.00-13.45	Examination of the fetal brain + normal findings according to GA - M. Bugiani (panel discussion / Q&A)
13.45-14.30	Developmental patterns (focus on macroscopy) - H. Adle-Biasette (Q&A + 1 or 2 cases)
14.30-14.45	Break
14.45-15.30	Cortical development & epilepsy - E. Aronica (Q&A + case discussion)
15.30-16.15	Epilepsy, aquired causes - M. Thom (Q&A + a short quiz based on typical cases)

Thursday, April 21st

Session III: 'Infectious and inflammatory diseases of the CNS'

09.00-09.45	Infectious diseases (1), reaction patterns, fungal & viral infections - H. Adle-Biasette (case discussion + Q&A)
09.45-10.30	Infectious diseases (2) bacterial and parasitic diseases - W. Stenzel (case presentation and panel discussion)
10.30-10.45	Break
10.45-11.15	MS / auto-immunity - C. Stadelmann (Live microscopy case discussion + Q&A)
11.15-11.45	Other auto-immune diseases + DD; general overview - C. Stadelmann (case discussion + Q&A)
11.45-12.15	Combined case discussions / practical issues concerning biopsies - All 3 (Q&A)

Session IV: 'Neurodegenerative diseases'

13.00-13.45	Neurodegeneration: basic principles + prion propagation - W. den Dunnen (Q&A / panel discussion)
13.45-14.30	Prion diseases (diagnostics + practical issues) - G. Kovacs (poll/Q&A/case)
14.30-14.45	Break
14.45-15.30	Dementias (types, grading and clinicopathological correlation) - G.Kovacs (Q&A/case)
15.30-16.15	Movement disorders (pyramidal, extrapyramidal & ataxia) - W. den Dunnen (live digital microscopy)

Friday, April 22nd

Session V: 'Muscle pathology & metabolic diseases'

09.00-09.45	Muscle pathology procedures & artefacts (do's and don'ts) - W. Stenzel (2 cases with artefacts by both Claeys and Stenzel)
09.45-10.30	Congenital muscle pathology - K. Claeys (cases with rods and cores, DD and genetics + panel discussion)
10.30-10.45	Break
10.45-11.30	Muscular dystrophy / myositis - W. Stenzel (case discussion / live microscopy)
11.30-12.15	Metabolic diseases & toxic changes - K. Claeys (case discussions)

Session VI: "Topics in neuro-oncology"

13.00-13.30	New WHO, background of large groups of entities described in the book - M. Kros (panel discussion)
13.30-14.15	Adult gliomas + molecular diagnostics (IDH, 1p/19q, MGMT) - C. Hartmann (Q&A and case discussion)
14.15-14.30	Break
14.30-15.15	Pediatric gliomas, embryonal tumors overview + methylome background - D. Capper (Q&A and case discussion)
15.15-15.45	Case discussions about meningiomas & metastatic disease - All 3 (Q&A)
15.45-16.00	Break
16.00-16.30	Case discussions about lymphoma and pituitary adenoma - All 3 (Q&A)

Organizers

Prof. Wilfred den Dunnen, Chairman Euro-CNS Educational Committee

Prof. Joachim Weis, Co-organizer Basic Courses

Faculty

Homa Adle-Biassette, Paris

Eleonora Aronica, Amsterdam

Marianna Bugiani, Amsterdam

David Capper, Berlin

Kristl Claeys, Leuven

Wilfred den Dunnen, Groningen

Christian Hartmann, Hannover

Gabor Kovacs, Toronto

Max Kros, Rotterdam

Colin Smith, Edinburgh

Christine Stadelmann, Göttingen

Werner Stenzel, Berlin

Maria Thom, London

Joachim Weis, Aachen
